Chapter One

CREATION

In the beginning God created the Heavens and the Earth. God saw that what He had made was good, and His work continued on. Soon, He made man, called him Adam, and a helper for him. These things are the basis and the foundation for why we exist.

There is no big bang, no evolution, no apes, and no other scientific theory or reasoning that can negate these facts. God is God, and we are His people and the sheep of His pasture.

Creation is not in any way a far-fetched notion as those in the world want us to believe. They want to remove creation from the process, thereby dishonoring God for His creation and ownership of all that is. They've even gone so far as to wage war against everything that has been given to us as His laws, precepts, principles, and parables, which give us purpose.

In today's society, the war the devil is waging against God's creation of the Heavens, Earth, and Humanity still has the same plan, the only thing different is that because of the changing times, he's added more methods. His attack on creation has not worked to sway Christians, so he's trying to sway their following by making us follow each other through social media.

The attack has even been launched against prayer in schools, the display of the Ten Commandments as a banner in the courts, and keeping the sanctity of marriage between one woman and one man.

Think about it, overall, if the devil did not feel these things were a threat to his plan of making people who believe in God, honor God, worship God, and give glory to God, stop doing these things, he would not be spending so much time effort trying to destroy or discredit them. There are others that we'll get into later chapters, but first, let's deal with these three.
